

Project W³
Weekly Assessment

Name A. Einstein

Week of: 2/29/00

Assessment: (Show evidence for these items.)

Quality completion of timeline goals:

Comments:

I did OK but I didn't really try too hard to find Mr. Gaudet to get help with the computer and wasted too much time just gabbing with my intern. I did get the hyperstudio stack done and met all of the goals except getting the wetland pictures.

Grade= B-

Quality of weekly meeting with teacher coaches:

Comments:

I feel pretty good about my talk with my coaches. We had a scheduling problem. I approached them, and told my problem. We compromised on a new schedule. I met with my intern on Monday to go over the plan and got all my critical friends done.

Grade= A

Quality of daily contact with interns:

Comments:

The schedule meeting was very effective. I could have asked for help earlier, though. I did talk to my intern on each academic day and kept her informed about my progress

Grade= A

Overall Quality use of time:

Comments:

I worked my butt off after we had the meeting. Before the meeting I wasted too much time because I was afraid to bring up my problem...

Grade= B

Quality completion of homework:

Comments:

This is why I was having a scheduling problem. I have been watching a bit too much TV and didn't really do much of the homework that I needed to be able to do my class work.

Grade= D

Being an active and supportive part of the learning community:

Comments:

This one is hard, after our meeting I felt like I helped others pretty well with Photoshop and how to use the internet. Before our meeting, though, I didn't really help anyone. I just worried about my problems.

Grade= B-

My Overall grade for the week is B Intern: _____
